

One book sets aside global warming alarmism and asks...
...Is it **hype?** ...Is it **real?**

Is it **Hot** in Here?

The simple truth about global warming

"...a fair and balanced argument for the climate of our world."
—Josh Rubenstein, Meteorologist
KCBS/KCAL Los Angeles

Nathan Todd Cool

254 pages / 6X9

Paperback ISBN: 0-595-40622-X \$19.95

Is it **Hot** in Here?

The simple truth about global warming

"Should be required reading...a fair and balanced argument for the climate of our world."

—Josh Rubenstein, Meteorologist
KCBS/KCAL Los Angeles

"...the most thoughtful, comprehensive, well-written and accessible study of global warming I've ever read."

—Aaron Kenedi, Editor-in-Chief, Shift magazine

Brushing aside the apocalyptic ballyhoo, political ramblings and headline hype, *Is it Hot in Here?* presents an unbiased perspective on the science, history and politics of climate change. With a lean towards levity, this fact-filled, fun to read book provides intriguing information with a levelheaded look at the often exaggerated and sometimes misunderstood facts about global warming.

Is Earth warming? To an extent, yes. Are there political agendas at play? Possibly. But is the sky about to fall?

In a world where we search for either yes or no answers, the controversy over climate change is packed with an abundance of grey area as most books, documentaries and even highlights in the media tend to lean to the extreme. That is, until now...

Is it hype? Is it real? **Is it Hot in Here?** This latest book by Nathan Cool tells it like it is.

Nathan Cool is the Chief Forecaster for WetSand, Inc. and founder of GreenhouseTruth.com. Nathan is a member of the American Meteorological Society, the American Association for the Advancement of Science and the National Weather Association. Recognized as a pioneer in the field of long-range marine, surf and wind forecasting, Nathan is well known as the author of the world's first comprehensive book on surf forecasting, *The WetSand WaveCast Guide to Surf Forecasting* and the author of the award-winning *The Four Keys to Successful Design*, the highly acclaimed *Cherished Memories*, and *Rhythm of the Ocean*.
